

The Old Family Album

By G. A. MARTIN.

DEAN D. CLARK, commercial superintendent of the Tri-State Telephone company, is shown in the accompanying picture as he looked at the age of eight months, when his parents first took him to Denver. Dean was born in Leadville, Colo., the highest incorporated city in the world, speaking in an altitudinous accent, and was taken to Denver at an early age, where he spent the rest of his life until he came to El Paso on July 6, 1911.

RESTORES VITALITY

Gives Strength to the Nervously Weak and Run-Down.

Pepton is both medicine and food for the blood and nerves. It is in full accord with advanced science as to the proper treatment of anemic and neurasthenic conditions, in which the blood of men and better nourishment is so apparent. It combines iron and manganese with suet, celery, papain and other tonic and digestive. It supplies the deficiency of red blood corpuscles in anemia, repairs the waste of nerve tissue in neurasthenia, gives color and stamina, and restores vitality.

I was run down and nervous. Pepton has done me good. Good. Bertha Rittenburg, Travel N. Y.

This Skin Peeler In Great Demand

Have the discovery that marvellous wax possesses remarkable absorbent powers when applied to the skin, the demand for it as a complexion restorer has been tremendous. It removes every blemish, freckle, and all the unsightly things that have ever had on their skin.

Ordinary marvellous wax gently peels off the overgrown cells, in minute particles, so that the new gradually forms and the complexion is restored. Cutaneous eruptions, itching, redness, chapped lips and freckles are all removed at the same time. As the wax is entirely harmless and easy to use, women all over the country are purchasing it in original packages and using it to quickly improve their complexion. The wax is applied to the face by hand, allowed to remain on the face for a few minutes, then washed off with warm water.—Adv.

Patter And Chatter.

The Lure Of The Wild, Free West.

Three New York boys who were on their way West to kill Indians were halted in Pittsburgh a few days ago.

WHO says that all the world is changed.
That nothing's as it was before?
Men who were friends may be estranged,
Old gods are on the job no more.
But youth still has romantic dreams
Of wild adventures in the West,
"Where teepees loom beside the streams
And hatred fills the savage breast."

THE ex-cart limited is gone,
And when it passed in other days
As swiftly, over and under,
Attracted the groundling's casual gaze.
But if we turn from wheels to wings
And former fears and doubts resign,
Youth still is dreaming of the things
That claimed your fancy once, and mine.

CORCORAN ART GALLERY.

FOR those who are interested in the art of the Corcoran Art Gallery in Washington, D. C., who derive inspiration from her beauty of line and color, the Corcoran art gallery in Washington, D. C., has natural charm. The life of the Corcoran gallery has been the subject of much publicity there. She is portrayed in all her varied activities.

As now after her confinement the mother after beauty, he is constrained to wonder why so many artists choose her as a subject. She is not the most graceful of creatures. Often her color scheme is lacking in both design and harmony. But she stands still longer than almost any other living animal, and that may account for her popularity among the artists whose paintings are exhibited in the Corcoran gallery.

The Corcoran gallery was established by a wealthy gentleman of that name for the encouragement of American art, and it fulfills this purpose by holding two exhibitions of American paintings every year. Sometimes it buys some of the pictures which are exhibited. Unknown artists say that only those of established reputation ever sell anything to the Corcoran, and radical artists say that the Corcoran gallery has not yet known that anything has happened in the world of art since the days of Queen Victoria. But the Corcoran people and the artists whose pictures they buy are both pleased with themselves.

Don't Experiment with Catarrh; It Often Leads to Serious Trouble

You Will Never Be Cured by Local Treatment With Sprays.

Catarrh is a condition of the blood and cannot be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim and making it more difficult for even the proper treatment to accomplish results. Though Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus Catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

Our local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results to even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the Medical Department for expert advice as to how to treat your own case. Announcing the Re-creation of ANHEUSER-BUSCH'S FAMOUS Budweiser

IT is the fixed policy of Anheuser-Busch to comply with every provision of public laws and regulations. That policy will be adhered to in the future as in the past. In view of the Act of Congress, effective October 29, 1919, we feel that our many friends and customers have the right to know how the Anheuser-Busch industrial plants will be utilized.

Our greater development plans include, among other new products, an additional cereal beverage to which we shall apply our well-known trade-name Budweiser. This beverage will be manufactured, in every detail, according to our original Budweiser process, and de-alcoholized to conform to Federal law. It will possess the genuine Budweiser flavor and quality.

Budweiser, re-created, will be manufactured from the choicest, most wholesome and nutritious cereals—and hops, noted for their tonic effects. It will be fully and maturely lagered, put up in sterilized, hermetically sealed, 12-ounce brown bottles, and pasteurized to insure its permanent purity and quality.

We guarantee that this Budweiser is bacteria free, will keep in any climate, and is healthful and nutritious.

We shall be ready to begin shipments by January 1, 1920.

Budweiser is manufactured and bottled exclusively at the plant of
